

TotalCare Series® Conditioners

Your household **deserves great water.**

Water is an essential part of your life. And better water means better health for your family and more efficiency for your home. Whether your water is supplied from the city or a private well, your water problems might include:

- Rust colored stains
- Build-up and scale
- Blue and green stains
- Corrosion damage
- Foul odor and taste

That's why WaterCare® is dedicated to making water good for life. As your professional WaterCare dealer, we can help you pinpoint your specific water problems and tailor the system that's perfect for your household's needs.

TotalCare Series® Conditioners. **One unit. Total water care.**

TotalCare conditioners include patented self-monitoring technology that disinfects your system, as well as the advanced IQ² controller valve. These features work together to make the smart, convenient water treatment system for your home and lifestyle.

The TotalCare conditioners use exclusive Crystal-Right™ media to soften water and remove the minerals that stain your fixtures and produce unpleasant taste and odor. They can also correct mildly acidic water conditions to help preserve your home's piping and fixtures.

The result is better water for you and your family.

Effective filtering **with advanced media.**

The Crystal-Right™ media are efficient at eliminating problem minerals and nuisance iron and sulfur bacteria. They also have a high tolerance for the chlorine needed to disinfect the system. This durable, innovative filter is the ideal media for the patented disinfection system, and ensures the finest quality conditioned water for your household.

TotalCare Series® Conditioners.

The complete solution for your home water treatment.

Every component, every feature, every innovation that goes into the TotalCare conditioners has been designed to bring the highest quality, most efficient water to you and your family.

Also available as a twin conditioning system.

Water treatment innovations inspired by your lifestyle.

TotalCare Series® Conditioners are part of the WaterCare water treatment product line, and are built in the USA. WaterCare has been dedicated to making water good for life and developing industry-leading innovations for over 60 years.

As a WaterCare dealer, we are part of a select group of certified dealers who exclusively sell and service WaterCare systems. With WaterCare, you can be assured of the cleanest water for your family, along with the highest level of customer service.

We have proven water treatment industry expertise and received extensive product and service training specific to WaterCare's water treatment systems. Above all, because of the flexibility of the WaterCare systems, we can tailor your water system to best satisfy your family's needs. That's how we make water good for life.
